SKILLS

Languages: TypeScript, Java, Python, HTML, CSS, JavaScript, C++, C

Frameworks / Libraries: Node.js, React, Next.js

Developer Tools: Git, GitHub, REST APIs, VS Code

Networking & Backend: HTTP/HTTPS, TCP/IP fundamentals, Client-Server Architecture

PROJECTS

Personal Website (*TypeScript, React, Next.js, HTML, CSS*)

- Designed and developed a modern, responsive portfolio with a clean, minimal UI/UX.
- Implemented structured navigation and layout systems to clearly present projects and experience.
- Optimized the site for performance, readability, and long-term maintainability.

Graduation Progress Tracker (*TypeScript, Node.js, React, REST APIs*)

- Built an academic planning tool to track degree requirements and student progress.
- Implemented logic to identify missing credits and generate recommended next academic steps.
- Designed and tested user workflows with systematic QA checks, validating edge cases and ensuring reliable API responses across different input scenarios.

Class Attendance Tracker (*Python, JavaScript*)

- Developed an application to log, track, and visualize attendance patterns over time.
- Created simple and consistent data entry workflows to encourage regular use.
- Integrated basic networking concepts by handling client-side data transmission and simulating API-style requests for consistent attendance logging.

EXPERIENCE

Ski Instructor

Dec 2022 – Jan 2025

Camp Fortune

Chelsea, QC

- Instructed **3 daily lessons** to groups of **10 students**, adapting to varied learning styles while maintaining safety standards and CSIA Level 1 Certification.
